

GPS Fleet Tracking

Let us help you Track Your Vehicles Anywhere...24/7

It's like being in the Driver's Seat!

Networkfleet® has merged GPS technology with AT&T for an affordable wireless coverage to offer a real-time tracking solution. Easily accessible **GPS fleet tracking** can improve mobile asset efficiency and reduce costs, to save you in time and money. You can gain access to Networkfleet's GPS tracking system from your computer 24/7, anywhere. These are a few solutions available in GPS fleet tracking services:

- Through street maps, satellite and hybrid, you can view vehicle location in real time
- Setting landmarks and geo-fences, allow you to monitor vehicle locations and dispatch closest vehicle to service calls
- With customizable reporting options, you can review historical reporting for each vehicle locations and usage which allows for customer service order detail
- In the GPS Fleet Tracking service, you gain control of individual vehicles and groups that may be customized through vehicle administration
